Experience

Kinde Engineering Website Development |Kinde Engineering Company

Nairobi |
Jan 2023 - Mar 2023

- Developed a website for Kinde Engineering Company, designed to showcase their engineering expertise, services, and projects.
- The website offers a user-friendly interface with streamlined navigation, ensuring potential clients can easily access detailed information about the company's offerings and industry solutions.

Career Pros Africa Website Dev |Career Pros Africa

Nairobi |
Jan 2024 - Apr 2024

- Developed a website for Career Pros Africa, featuring a fully integrated payment system
- The platform is designed to provide a seamless user experience while offering various career services, and the payment integration ensures secure and efficient transactions for customers accessing premium features.

IT Technician | Deliverance Church International

Nairobi, Kenya |
Apr 2016 - Sep 2024

- Served as part of a church media team, where I was responsible for managing audiovisual equipment, live streaming services, and producing digital content for both in-person and online audiences.
- My role involved ensuring seamless media operations, enhancing the quality of worship experiences, and supporting the church's communication and outreach efforts through various multimedia platforms.

Point of Sale Development | Qernel POS

Nairobi |
Jan 2022 - Aug 2022

- Developed a comprehensive Point of Sale (POS) software, designed to streamline sales transactions, inventory management, and reporting for businesses.
- The system is optimized for efficiency, providing real-time data tracking, user-friendly interfaces, and secure payment processing to enhance overall operational performance.

Techworth Solutions Web Development

Nairobi |
Jan 2022 - Aug 2022

- Developed a responsive and scalable e-commerce platform for Techworth Solutions to enhance their online sales capabilities. The project included features such as product catalogs, secure user authentication, and a streamlined checkout process.
